

Field Trip Reflection II

Name: Danylo Lysychenko

Lab _____

Date: 10/10/25

Where did you go on the field trip and what was its purpose?

Gannon University to see what the university offers and what classes and fields that I can potentially get into.

As you were on your field trip, can you identify skills that you have acquired while at ECTS that have prepared you for success towards completing your career goals? Describe how you can strengthen your existing skills to maximize your specific career goals.

Coding, problem solving, critical thinking, and paying attention to details.

What professional etiquette did you use while on the field trip? Why is it important to practice appropriate social protocols?

Respecting other people and listening and not interrupting. It's important to practice those appropriate social protocols because when you do those things, you show that you care and want to show respect for others.
